

SAFETY MEASURES.

1. During the NVD-KOF3NVTV camera operation there is no danger of electric shock.
2. **Prevent from lighting with IR laser illuminator a human face closer than 150 meters away.**
3. Keep the camera out of direct ingress of water.
4. When brought into a warm room from the cold outside the optical elements may become sweated.
5. Prevent the camera from mechanical damage and moisture.
6. Protect the lenses from dirt. If necessary, clean them with clean soft cloth; remove oiled spots or deposit with cotton wool slightly wettened in rectified alcohol or with alcohol-ether mixture.

WARRANTY

The manufacturer warrants its products against defects in materials and workmanship for a period of twelve months from the original date of purchase. Any device returned for warranty service must be judged by the manufacturer as having been used according to its original design intents. As such, misuse, neglect, or any abnormal use is not covered by this warranty.

The manufacturer will repair or replace such products or parts thereof, which, upon inspection by the manufacturer, is found to be defective in either materials or workmanship. As a condition of the manufacturer's obligation regarding warranty work, the product must be returned to the manufacturer with a satisfactory proof of purchase.

This warranty is null and void if equipment has been altered, tampered with, modified, or otherwise abused, mishandled, or subjected to unauthorized repairs.

The manufacturer disclaims any other warranties, either expressed or implied, except as expressed herein. The sole obligations of the manufacturer are repair or replace the covered device.
